Hi Cathie,

We have been pulling the records based on termination date rather than file date. We can pull the records by file date if that is what you would prefer moving forward. I apologize for the incomplete email, as well.

Thank you,

Thanks Anne. I thought the termination of pregnancy reports filed in the next month would be picked up in the next request. We checked the June documents and did not see any May terminations. Could you help me understand why the following month does not include all the termination of pregnancy reports filed in that month? Perhaps I should change my He language of my request to say "filed."  
Thank you for helping me clarify.  
Cathie

Hi Cathie,

I reviewed the document previously provided and found that some records had not been filed by the time your request was completed. Attached is a new file with all terminations reported as having occurred during the month of May 2018.

Please let me know if you have any questions or concerns.

Thank you,

Greetings,

We have carefully reviewed the records we received responsive to our request below for termination of pregnancy reports submitted from May 1, 2018 through May 31, 2018. It is our belief that we are missing documents from the Bloomington Planned Parenthood abortion facility for the weeks of May 21, 2018 and May 28, 2018, specifically the dates of May 24, 2018 and May 31, 2018. We searched the records we received responsive to our request for termination of pregnancy reports for June 1, 2018 through June, 30, 2018, and did not find the missing May reports with those documents.

Would you review your documents to see if you had records submitted for the dates in question?

Thank you.  
Cathie Humbarger
